

## **LAYBOURNE LAKES.**

This venue comprises three lakes,

Marley's (primarily the match lake).

Potter's and Brown's, (which may be used for matches).

**Night Fishing is not allowed.**

**MEMBERS ONLY.**

**NO DAY TICKETS.**

Laybourne lakes are a development of an existing lake into three separate lakes. The lakes have been created to enable YDAA members 'Commercial style' fishing for Yorkshire favourite price. FREE!

The lakes have easy level access, with good platforms and are well stocked to provide good all year round sport with silver fish and carp. Marley's and Brown's have a number of pegs specifically for disabled anglers.

The venue holds a good head of 'match sized' carp, along with tench, bream and plenty of roach. Pole tactics using pellets will see most species on the bank, although waggler or feeder fishing can be just as effective.

Some of the carp are now into double figures. No pike or perch are present.

The lakes are matched fished on a regular basis, but pleasure anglers can usually find a free peg or two except for the busiest days.

Take the A59 from York to Harrogate, and then turn left to Hessay. Cross over the railway crossing then turn left at the T-junction. After passing the cottages/bungalows take the next right turn. Follow this narrow lane to the end of the 'metalled' road, turning left along the track, which in turn leads to the ponds on the left. Reduced speed and care should be taken driving along this track, due to subsidence.

**Access is made at the vehicle owner's risk.**

### **Parking.**

Park to the left of the entry, 'bumpers' to the banking, and leave disabled parking spaces on the right free for our disabled anglers.

### **Additional regulations for Laybourne Lakes.**

- **Fishing will be from 07:30 until dusk, defined as 30 minutes after sunset.**
- **Hooks, to barbless and a maximum of size 12.**
- **Groundbait may be used, but a limit of 1 kilogram (dry) is imposed.**
- **Normal baits will be allowed but sweetcorn may only be used as a hookbait.**
- **No of the following baits can be used**
- **Bread, Boilies, Peanuts, Tiger Nuts, Cat Food, Bloodworm, Joker and floating baits.**
- **Keepnets are banned except during pre booked matches.**
- **Match anglers, are to use two keepnets, one for Carp and the other for silver fish**
- **"Dip Tanks" are provided for the sterilisation of keep and landing nets, and it would be appreciated if these are used as a matter of habit.**
- **No Night fishing.**
- **No braided lines.**
